natura scultorica

— limited edition —

“Exclusiveness” is the word that best defines the dappiù spirit.

The ancestral knowledge of the best marble masons joins the unique drawings of innovative designers, resulting in furniture that represents the perfect combination of timelessness and contemporaneity.

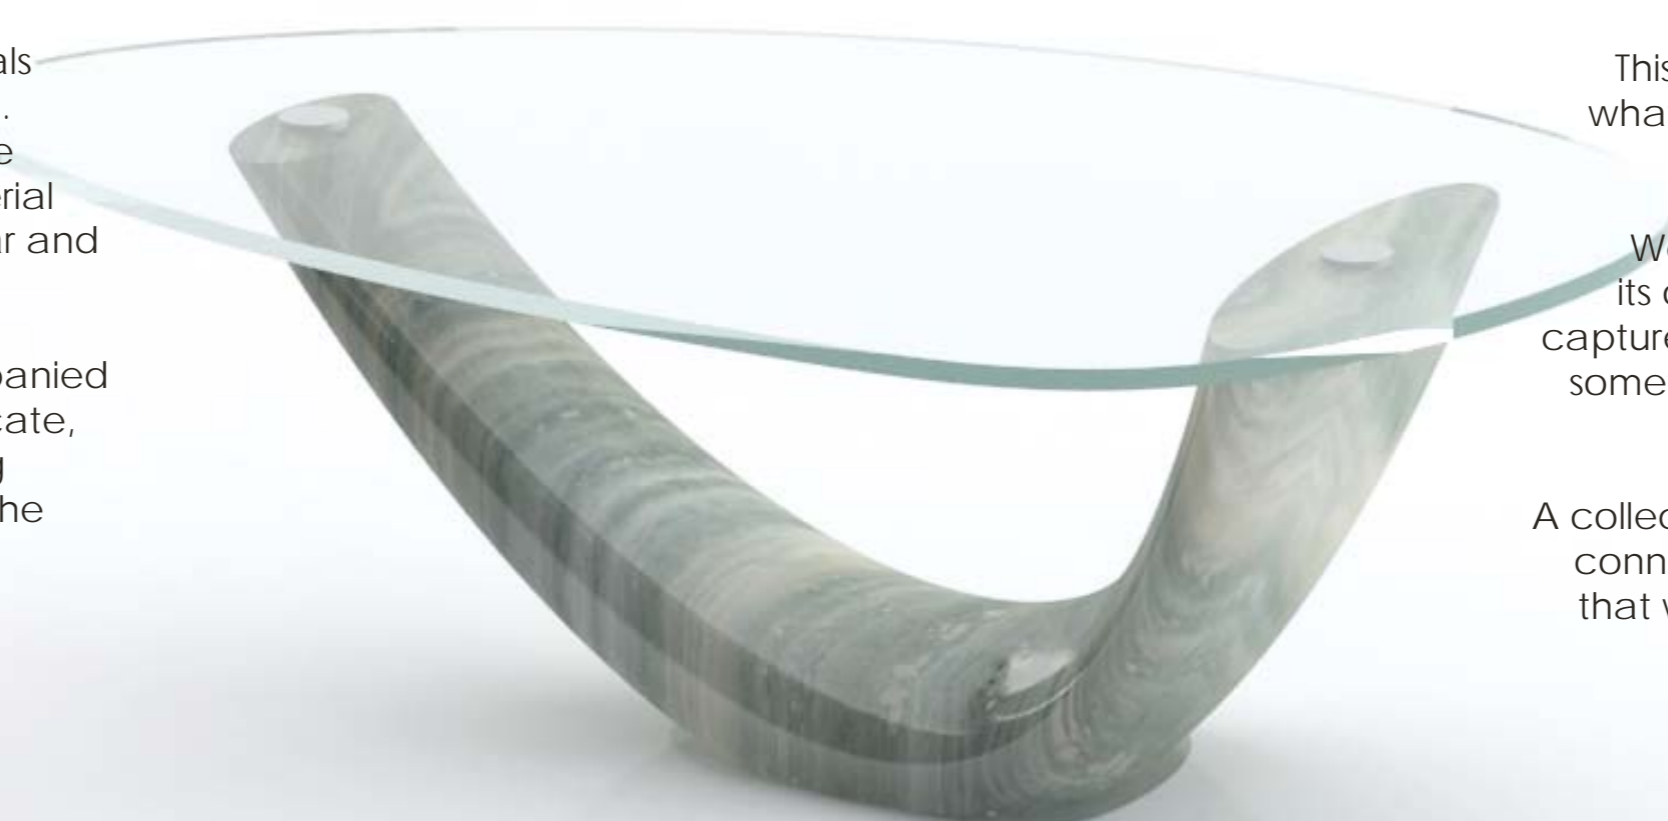

We work with fine materials and marble is our passion. The unique features of the block of this natural material make each piece singular and unrepeatable.

All our works are accompanied by an authenticity certificate, your guarantee of having purchased a piece with the original dappiù design.

This collection is a tribute to what we hold most essential: Nature.

We sought inspiration from its organic shapes, trying to capture its underlying balance, sometimes precarious, always beautiful.

A collection that celebrates the connection to our origins and that will bring harmony to the spaces that will house it.
